Customer Journey Map

Map out the student's experience stage-by-stage, capturing actions, touchpoints, thoughts, feelings, process ownership, and improvement opportunities.

Phase of Journey	Stage 1 Discover the Need	Stage 2 Upload & Organize	Stage 3 Study & Revise
Actions What does the customer do?	- Notices study materials are scattered. - Looks for a simpler revision method.	- Uploads notes or PDFs to StudyBuddy. - Opens the saved material.	- Requests summaries, flashcards, quizzes, or a study plan. - Reviews generated content.
Touchpoint What service do they interact with?	- Personal notes, PDFs, class materials. - Search for a study tool.	- StudyBuddy API upload endpoint. - Materials list and material details.	- Summarize, flashcards, quiz, and study-plan features. - API responses shown in the client.
Customer Thought What is the customer thinking?	"My notes are in different places. I need one organized study space."	"I hope I can upload my material easily and find it later."	"These summaries and practice questions may help me revise faster."
Customer Feeling What is the customer feeling?	- Overwhelmed by scattered materials. - Wants clarity and control.	- Hopeful while organizing materials. - May feel unsure if upload fails.	- More confident when content is useful. - Less pressured with a clear revision plan.
Process Ownership Who is in the lead?	- Student identifies the need. - StudyBuddy team designs the solution.	- Student uploads and selects materials. - Backend handles storage and retrieval.	- Student chooses a study feature. - Backend and AI service generate results.
Opportunities How can we improve this stage?	- Explain features clearly. - Provide a simple onboarding guide.	- Show upload progress and clear errors. - Support common file types and easy search.	- Keep AI output clear and accurate. - Allow regeneration and feedback; protect user data.

Note: This journey map is a project-based draft. Update it if your team collects direct student feedback.
